## Bonaire “Power Up” Progress The Bonaire Transmitter Power Upgrade

We continue to celebrate God’s provision as Cubans await a more powerful signal from TWR’s AM radio station on the island of Bonaire. Of the \$3.8 million we set out to raise, we have \$1.5 million to go! That’s 60 percent of our goal reached, and we are so grateful for your prayers and support. Your participation in Bonaire Power Up will help us to reach more listeners like Esneider and Liset. Here’s what they wrote to us recently about the Spanish broadcasts reaching into Cuba:

**From Esneider:** “Greetings, TWR, and may God bless you very much. You are a great seasoned group that works collectively to extend the kingdom of the Lord and the gospel message to all nations. Every time I listen to you - albeit with difficulty because sometimes the signal here in Cuba is not good - I like the way you teach the word clearly for all your listeners. I really like the program *Messages of Faith and Hope*. Receive a greeting from one of your listeners.”

**From Liset:** “Brothers, May God bless you immensely. I’m so glad that you have not forgotten about me. Your words are a blessing and the Word of God through you. Continue praying that in Cuba we would be able to hear the Word on more radio and television media. I hear you better at night on my radio, but I don’t know how many more people in the country can hear you. Your sister in Christ loves you.”

In addition to about 25 existing Spanish programs already on the air, the staff of TWR Cuba are working on three more that will minister specifically to Cubans:

**Basic Theological Training** to provide house church pastors with theological training.

**Leadership in Worship** to provide a biblical understanding of worship with practical applications.

**Christian Living in the Cuban Context** to answer questions about spiritual, physical, and emotional health while living in a communist country.

## What's Happening to Make Progress on Bonaire Power Up

Thanks to KNTS Radio Luz (Radio Light) of Seattle, Washington, for featuring Bonaire Power Up on their Spanish-speaking station in January. Sixty-five listeners got on board with gifts to the project. Thank you!

Thanks to five couples from Grand Rapids and two couples from Philadelphia who joined TWR missionaries Carol and Daryl VanDyken in several Bonaire Power Up projects to prepare the output panels in the phasor room of the transmitter hall, position the feedlines that feed power to the antennas, install rain shields on the antenna tuning houses, and help with painting.

Thanks to North Syracuse Baptist Church for helping TWR Bonaire staff members Benny, Ivan, and Lionel to install heavy doors on the antenna tuning houses. The doors were not the right size when they arrived, but creativity and working together led to adjustments that got the job done.

***And thanks to your desire to reach others for Jesus Christ, the Bonaire Power Up project is at 60 percent of our funding goal. We are thankful to God and to you!***
